

The image shows several large rolls of corrugated metal sheet piling, likely made of steel or aluminum, stacked in an outdoor area. The rolls are arranged in a way that shows their curved, ribbed profile. The background consists of dry, yellowish-brown vegetation and a clear sky, suggesting a construction or industrial site in a semi-arid environment. The text 'Rezervuāri Weho' is overlaid in the center of the image in a bold, black, sans-serif font.

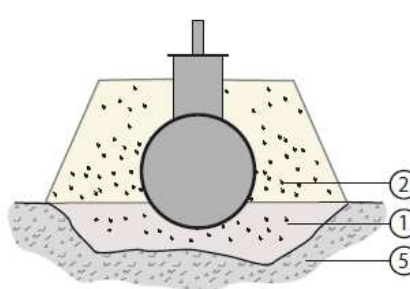

# Rezervuāri Weho

Weho konstrukcija ļauj rezervuāru montēt gan virs zemes, gan zemē.

◆ Rezervuāri zem zemes

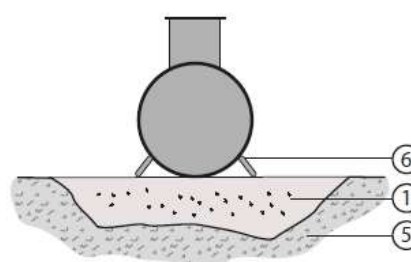

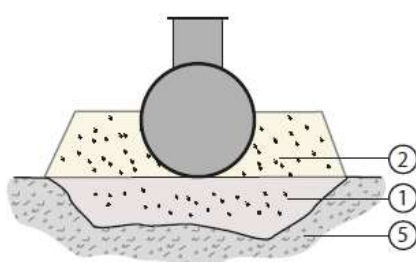

◆ Rezervuārs daļēji virs zemes

Apraksts:

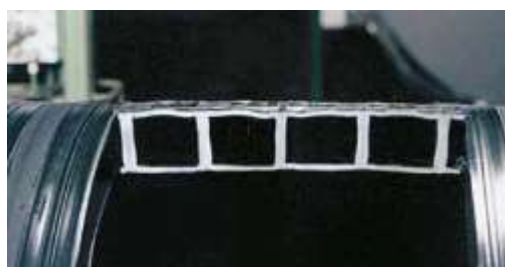

1. Piebēršana
2. Pamata apbērsana
3. Augšas apbērsana
4. Aizbēršana
5. Virsējais grunts slānis
6. Balsti

◆ Rezervuārs virs zemes

Weho īpašības:

- 100% hermētiski
- Igltpējīgi
- Pilnībā korozijas droši
- Dubults korpuss
- Ķīmiska izturība
- Pilnībā izturīgi pret ultravioleto starojumu
- Salīdzinoši neliels svars
- Viegli montējami arī ziemas apstākļos
- Der vietām ar augstu gruntsūdeni
- Universāls pielietojums
- Izmantojami zem ceļa braucamās daļas
