

# NEOplus

## Infiltration System

### THE NEW ECONOMICAL STANDARD IN RELIABILITY!

#### The Proven Reliability and Quality of NEOplus

The NEOplus Rainwater Infiltration System from Premier Tech Aqua sets new industry standards in efficiency and long-term rainwater runoff infiltration. Made of top quality rotomolded polyethylene, our award-winning NEO product line is recognized across Europe for its superior design, ease of handling and reliability for sustainable and economical projects.

Offered in 10,000 to 50,000 L (expendable) capacity, one of our NEOplus tanks will surely meet your needs!

reddot award 2015

#### PLUG & PLAY!

- Compact, single-tank design
- No time-consuming assembly
- Much easier to install than boxes

#### FREELY ACCESSIBLE

- 2 manholes for easy access at all times
- Very easy to control, maintain and clean
- No separate shafts required

\*35-year warranty applicable on durability of tank.

# BETTER TAKE NEO!

NEOplus tanks replace hundreds of boxes!

EFFECTIVE SEALED AREA	INFILTRATION BOXES REQUIRED (210 L each)	NEO TANKS REQUIRED
1,000 m <sup>2</sup>	105	1 x 20,000 L
1,500 m <sup>2</sup>	157	1 x 30,000 L
2,000 m <sup>2</sup>	209	1 x 40,000 L
5,000 m <sup>2</sup>	521	2 x 50,000 L

Gravel backfill allows direct seepage and long-term safety at drainage. Single fleece coat only needs to be placed above and on the sides of the tank.

## TIME-SAVER AND SECURE

- Heavy-duty geomembrane prevents siltation of gravel
- Fast, quality installations every time
- Reduces time, labor and saves you money

**100% RECYCLABLE**  
AFTER YEARS OF USAGE
